SC-70 XAIR

70CFM

The light and compact size of the XAIR gas compressors, along with the retractable handle and pneumatic tires makes them manually transportable by one person. Oil Injected Rotary Screw, resulting in extremely durable, efficient and high performance air. Monitair System provides very fast throttle response for power on demand leaving engine idle until power is required, making it very economical. Air flow and pressure are constant and continuous, no need for air tank. Removable gas tank to ease transport and refill. Honda V-Twin OHV engine for low noise & vibration, fuel efficiency, durability and outstanding reliability.

BLICK INDUSTRIES

WHAT IS BLICK INDUSTRIES
Blick Industries is the premier manufacturer and supplier of vacuum holding products for the stone, glass and solid surface fabricating industries. The large selection of suction cups, clamps, supports and holding accessories provides our customers with solutions to their most difficult workholding challenges.

THE BLICK ADVANTAGE
Blick Industries' suction cups have a modular construction which allows for easy replacement of friction pads and seals as well as wornout or damaged parts, thus, extending the life of the item and lowering the effective cost. Superior holding power is provided by larger base unit equal in size to top area of suction cup.
